Aspose Sponsors Developer Blogs

Aspose likes to support developers adding value to the development community with their blogs. That's why we have recently started supporting two more blogs: [codecademy.com](#) and [west-wind.com](#) along with already supporting different ones.

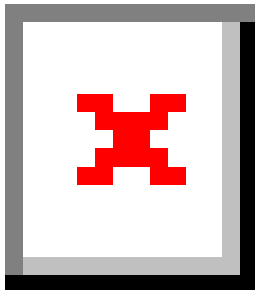

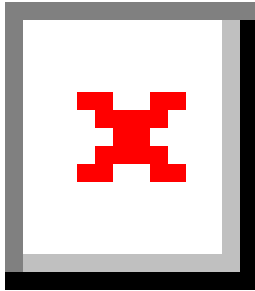

Table Borders in a Document using Aspose.Words

Aspose.Words for .NET and Java platforms, is making its mark in the Cloud APIs as it adds new features and improve existing ones in the Cloud APIs. Recently, Aspose.Words for .NET added features to insert table in a document and update table borders. Check [Aspose.Words for Cloud blog post](#).

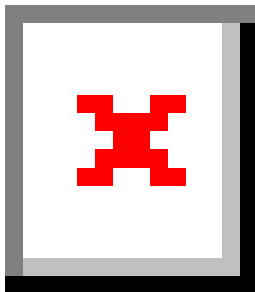

Aspose.CAD will soon be Removed from Aspose.Imaging

Due to the separation of Aspose.Imaging and Aspose.CAD, while all Aspose.CAD features will be moving to Aspose.CAD for improved features and performance, we'll be removing Aspose.CAD from Aspose.Imaging. So please start using Aspose.CAD for your applications. The code will not change and you can use the Aspose.Imaging license with Aspose.CAD as well until your license expires. You can check more details in [Aspose.CAD Product Family Blog](#).

Aspose.Tasks for Java Revamped and Improved API out now!

After the successful launch of the redeveloped API for Aspose.Tasks for .NET, the same improvements have been ported to Aspose.Tasks for Java. This new and improved version includes useful improvements to the API to make it easier to use and with no missing features when compared to previous versions there's no better time to check out Aspose.Tasks for Java. Read about all the new improvements now <https://campaign.banckle.com/api/userSupport/uuid/bd097a16-799d-4890-adf1-9b5f9d7d8373/action/openLink?url=3Dhttp%3A%2F%2Fwww.aspose.com/blogs/aspose-products/aspose-tasks-product-family/archive/2015/03/13/aspose.tasks-for-java-revamped-and-improved-api-is-available-now.html?utm_source=3DNewsletter&utm_medium=3Dlink&utm_campaign=3DNewsletter-Mar2015>.

Support for Setting Automatic Series Fill Color in Aspose.Slides for Java 15.2.0

Aspose.Slides for Java now has a feature to automatically set the fill color of a series based on the presentation theme used. This is a welcome time saver when compared to doing this manually for each series in the chart. Check out the documentation for full details <https://campaign.banckle.com/api/userSupport/uuid/bd097a16-799d-4890-adf1-9b5f9d7d8373/action/openLink?url=3Dhttp%3A%2F%2Fwww.aspose.com/docs/display/slidesjava/Setting+Automatic+Series+Fill+Color?utm_source=3DNewsletter&utm_medium=3Dlink&utm_campaign=3DNewsletter-Mar2015>

Create Multi-Layered PDF documents and more using Aspose.Pdf for Java

A layered PDF document opens up a world of possibilities, from including te=

xt in different languages to appeal to a wide set of audience, to including= an overlay that must be first read before the reader can access the main c= ontent. Aspose.Pdf for Java 10.0.0 adds this functionality and so much more= . Try it out now<https://campaign.banckle.com/api/userSupport/uuid/bd097a16-799d-4890-adf1-9b5f9d7d8373/action/openLink?url=3Dhttp%3A%2F%2Fwww.aspose.com%2Fcommunity%2Ffiles%2F72%2Fjava-components%2Faspose.pdf-for-java%2Fdefault.aspx%3Futm_source%3DNewsletter%26amp%3Butm_medium%3Dlink%26amp%3Butm_campaign%3DNewsletter-Mar2015>.

How-to: Convert Email Files to WordPress Posts using Aspose Cloud Email to = Post Plugin

WordPress is the most popular blogging system used on the web today and now= using Aspose APIs there is an easy way to import emails directly into the = WordPress editor. With a click of a button any EML, MHT or MSG file is impo= rted into WordPress without the use of Microsoft Outlook or any other exter= nal program. Check it out now<https://campaign.banckle.com/api/userSupport/uuid/bd097a16-799d-4890-adf1-9b5f9d7d8373/action/openLink?url=3Dhttp%3A%2F%2Fwww.aspose.com/docs/display/emailcloud/1.+Aspose+Cloud+Email+To+Post?utm_source=3DNewsletter&utm_medium=3Dlink&utm_campaign=3DNewsletter-Mar2015>.

ProHire uses Aspose.Words for .NET to Convert Word Documents

ProHire is the workforce solutions leader in the United States. One of thei= r requirements is to convert MS Word Documents resumes into a clean and con= cise HTML format with high fidelity and that integrates into their existing= .NET Stack.

Aspose.Words solved this problem for ProHire by easily integrating into the= ir existing .NET Stack and cleanly parsing Word Documents to HTML. Aspose.W= ords produced results with the highest fidelity when compared to other solu= tions. Read the case study<https://campaign.banckle.com/api/userSupport/uid/bd097a16-799d-4890-adf1-9b5f9d7d8373/action/openLink?url=3Dhttp%3A%2F%2Fwww.aspose.com%2Fcommunity%2Ffiles%2F66%2Fcorporate%2Fcase-studies%2Fentry60=3998.aspx%3Futm_source%3DNewsletter%26amp%3Butm_medium%3Dlink%26amp%3Butm_campaign%3DNewsletter-Mar2015>.

FileFixUtility.com on Working with Aspose.Email for .NET

The team at File Fix Utility needed an advanced tool to read, save and manipulate Outlook storage files (PST). That content is then converted to PDFs or thumbnails to give users of their Enterprise Content Management System a unified, device independent, user experience. They found that Aspose.Email for .NET offered the best performance and functionality out of all the solutions they looked at. Read the review <https://campaign.banckle.com/api/userSupport/uuid/bd097a16-799d-4890-adf1-9b5f9d7d8373/action/openLink?url=3Dhttp%3A%2F%2Fwww.filefixutility.com%2Fpersonal-review-aspose-email-net%2F%3Futm_source%3DNewsletter%26amp%3Butm_medium%3Dlink%26amp%3Butm_campaign%3DNewsletter-Mar2015>.

Product News

Aspose Android APIs are Renamed to "Android via Java" and "Android via Xamarin"

Aspose Android APIs are ported from their Java APIs as they are subset components that include all the important and useful features present in their native Java APIs. [Aspose.Words](#), [Aspose.Cells](#) and [Aspose.Email](#) for Android are following this new product naming structure now (example: If you are building native Android apps using Android Studio, the right product is **Aspose.Words for Android via Java** and if you are using Xamarin platform, you can use **Aspose.Words for Android via Xamarin**, to build your mobile apps).

Exporting Excel File to Any Supported Format using Aspose.Cells for C++ API

Programmatically read the Excel (XLS, XLSX, XLSM, XLSB), CSV or Tab Delimited files and then export to XLSX or any other file formats from Excel 97 to 2003. [Continue reading here.](#)

Apply Checksum Validation on Codabar Coded Barcode in .NET Applications

[Aspose.BarCode for .NET](#) API now exposes the CodabarChecksumMode enumeration to specify the checksum mode. EnableChecksum property of the BarCodeBuilder class is needed to be set to TRUE before setting the checksum mode. [Read detailed examples here.](#)

AutoFit Cells in Worksheet and Set Excel Page Breaks in Cloud Apps

Process Excel files using [Aspose.Cells for Cloud](#) – platform independent REST APIs. Developers can import an Excel file, autofit rows and columns of any worksheet and then save to any supported file format. [Continue reading here.](#)

From the Library

How to: Export PowerPoint Presentation to HTML in .NET and Java?

Aspose.Slides for .NET and Java now support converting a PowerPoint presentation to HTML with embedded audio and video data. Access fully functional [.NET](#) and [Java code snippets](#) here.

How to: Render Microsoft Outlook VCard Contacts to MHTML?

Aspose.Email provides support for email threading and conversion of Outlook VCard contact information to MHTML within your .NET and Java applications. This can be achieved with **MhtFormatOptions.RenderVCardInfo** enumerator while saving the message to MHTML. Access [.NET](#) and [Java code snippets](#) here for your quick reference.

How to: Permanently Delete Email Messages from PST File in .NET and Java Apps?

Aspose.Email for .NET and Java allows deleting emails from PST files on permanent basis that no other email recovery or forensic tools can retrieve ever. This feature comes handy in some legal matters where private and privileged messages are supposed to be removed prior to access. Check out [.NET](#) and [Java source code examples](#) for further illustration.

How to: Print Microsoft OneNote Documents From Your .NET Applications?

Aspose.Note for .NET 17.3 allows programmers to print OneNote documents from within their .NET applications. The Document.Print method allows sending the loaded document to default printer but you can also specify printer settings for printing the document using the PrintOptions class. [View the source code here.](#)
